

Co-Creating Your Life: Tapping the Field of Infinite Possibilities **Lynn Sparrow Christy**

A Presentation for the Conscious Community Series at A.R.E.

67th St. and Atlantic Ave.
Virginia Beach, VA 23451
Wednesday, September 25th from 6:30-8:30 p.m.

We are told in the Cayce readings that the purpose of *each* soul is to be a co-creator with God. But what does that really mean? How much is up to us and how much is up to God? Is it true that we create our own reality? What does modern science contribute to our understanding of the infinite field of possibilities? Does the law of attraction work? And, more pointedly, why does it so often seem *not* to work?

In this session, we will:

- Explore the profound difference between fixed expectations and a state of open expectancy.
- Consider the part we play in the evolution of consciousness.
- See why all visualization practices are not the same.
- Uncover the sabotaging impact of *unconscious* intentions.
- Work with a step-by-step method for co-creating with the infinite field.

Edgar Cayce was truly a pioneer in his approach to the evolutionary, co-creative responsibility we each have. Lynn has worked with this material for decades and loves to share it in presentations that include key insights and practical takeaways.
